

Highprofile

ELEMENTS

Highprofile Elements is a unique shutter, exclusive to TWO Australia, which incorporates a solid poplar timber frame with PVC blades. Natural and synthetic elements are cleverly fused to provide a lighter option than other shutters of full PVC composition. This innovative hybrid shutter is finished in quality 2-pack paint.

COMPOSITION 100% Poplar frame, PVC blades

CONSTRUCTION 2 stage rebated, fluted mortise and tenon joint

COLOURS 7 standard colours

FEATURES Polyurethane system for frame, 3 undercoats and top coat. PVC Blades, top coated 2-pack finish.

BLADE SIZES 64mm, 89mm

APPLICATIONS Fixed, Hinged, Multi-fold, Sliding
