

NOT ALL
SHUTTERS ARE
CREATED EQUAL.
**5 TIPS FOR
EVALUATING
SHUTTERS**

1. QUALITY CONSTRUCTION

When evaluating aluminium shutters, consider the wall thickness of the construction. Weatherwell aluminium shutters have a 1.4mm wall thickness, in comparison to many others that use 1.2mm. Weatherwell shutters offer around 15% more aluminium for the price.

2. THE POWER OF CHOICE.

Weatherwell aluminium shutters are designed to allow for multiple application types. From multi-fold and hinged, to sliding and fixed, Weatherwell provides an array of flexible options to achieve non-obstructed views, privacy, balcony and room enclosures, to maximise living space.

3. CONSISTENT LEAD TIMES

We know that delivery expectations are a crucial part of the customer experience. Weatherwell aluminium shutters are manufactured and distributed in conjunction with our quality Highprofile timber shutters, with excellent and consistent lead times in the industry.

4. THE BEST OF BOTH WORLDS.

Available in a range of timber grain finishes, Weatherwell can achieve the natural look and feel of a timber finish in an outdoor environment with ultimate durability and ease of maintenance. The best of both worlds is possible with Weatherwell aluminium shutters.

5. BESPOKE CUSTOMISATION

Weatherwell shutters can be colour matched to any other colour using a high-quality liquid baked enamel paint, providing ultimate design flexibility. Weatherwell aluminium shutters can be effectively and creatively used in exterior and interior spaces.

Operable aluminium louvres	Fixed aluminium louvres
